**FLASH in DIRECTIONAL ARROW PATTERN**

Great for directing traffic on any worksite  
or emergency situation

# EASILY MARK THE END OF YOUR OVERHANG LOAD!

## LOGGER LITE (FLL and LLK)

FLL - FoxFire® Lites

LLK - SL Series Lites

Transporting after dark can make your overhang load almost invisible to approaching traffic. Various Federal, State, and Local Laws require a light or lantern be attached to the extreme end of the load after dark.

Designed to provide Log Truckers and Utility Companies with a convenient way to mark the end of their log and pole loads, the Logger Lite consists of a FoxFire or SL Series Lite, a galvanized metal mounting plate, and a custom T-handled tool. Quickly mount your choice of Lite to the end of your load for maximum safety and visibility.

**Mark your  
extended load  
quickly & easily!**

**Quick Installation!  
Installs in seconds**

Logger lite securely  
attaches easily to any  
size log - no tools  
required!

Available with  
FoxFire® or  
SL-Series Lite

When not in use,  
the Logger Lite Kit  
stays together and  
is easy to store.

Replacement T-Handle (T-HANDLE) and Mounting Plate (MMP) available for purchase separately

**WHICH LOG TRUCK  
WOULD YOU RATHER  
BE DRIVING?**

Use FoxFire Logger Lites to greatly  
enhance the visibility of your  
extended load for your safety and  
the safety of others on the road.

**USE A FOXFIRE LIGHT TO MAKE  
YOUR LOAD VISIBLE UP TO 1 MILE AWAY!**

**BE SURE YOUR OVERHANG LOAD  
CAN BE SEEN... IT'S THE LAW!**
