

# MSATA/HA

Cut and Abrasion Resistant

## APPLICATIONS

Appliance Manufacturing  
Automotive  
Metal Stamping  
Paper Manufacturing  
Plastics and Molding  
Public Utilities

WITHOUT THUMBHOLE

WITH THUMBHOLE

## FEATURES

Worldwide Protective Products style MSATA/HA is a 1-ply sleeve made with ATA® Hide-Away™ technology. This sleeve offers ANSI level A3 cut protection in a light weight 1-ply design. As a result, the MSATA/HA sleeve is cooler and more comfortable – as well as more protective – than conventional 2-ply para-aramid sleeves. The unique Hide-Away™ fiber helps to hide dirt and soiling to extend the life of the product. Available in any length, with or without a thumbhole.
